

M E 531: Mechanical Behavior of Engr Materials MECHANICAL ENGINEERING

The dislocation concept of plastic deformation is introduced and used to explain the relationships between microstructure and mechanical properties. The phenomena of strain hardening, creep, fatigue, and fracture are discussed in detail.

3 Credits Prerequisites

• Pre-requisite: Engr 313 or Graduate Standing

Instruction Type(s)

• Lecture: Lecture for M E 531

Subject Areas

- <u>Mechanical Engineering</u>
- <u>Materials Science</u>

The University of Mississippi is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award certificates and baccalaureate, master's, specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call 404-679-4500, or visit online at www.sacscoc.org for questions about the accreditation.
