

Ch E 543: Introduction to Polymer Science CHEMICAL ENGINEERING

This course is designed as an upper-level undergraduate and introductory graduate-level elective to teach the fundamentals in polymer chemistry and physics, structure/property relationships, and characterization. The course is taught at an introductory level aimed at students with a background in chemistry (especially organic chemistry).

3 Credits

Prerequisites

- Chem 221: Elementary Organic Chemistry I
- Instructor approval or graduate standing.

Instruction Type(s)

• Lecture: Lecture for Ch E 543

Subject Areas

• Chemical Engineering

Related Areas

• Chemical and Biomolecular Engineering

The University of Mississippi is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award certificates and baccalaureate, master's, specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call 404-679-4500, or visit online at www.sacscoc.org for questions about the accreditation.
