

## **GB 310: Information Technology in Business Management**

This course prepares students to function effectively in the modern information-driven business environment. Topics covered include ways in which information technology can be used to increase team and company productivity, the impact of information technology-based systems on organizational competitiveness, and the common tools used to improve individual effectiveness in technology-enabled professional settings.

GB 310 may not be used as a 300+ business elective.

Students may take either GB 310 or MIS 309, but not both for credit toward a degree.

3 Credits
