

BS in Radiologic Sciences (2+2) Description

The B.S in Radiologic Sciences (a 2+2 program with the University of Mississippi Medical Center) prepares students for a dynamic profession that is ever changing in terms of technology and professional expertise. Radiologic science is a specialized field in which professional specialists perform medical imaging procedures for the purpose of diagnosing disease and injury. The radiologic technologist is responsible for performing a variety of challenging and interesting examinations on a diverse patient population. Those procedures include conventional radiography, fluoroscopy, and surgical studies.

Minimum Total Credit Hours: 124 Course Requirements

The curriculum for the B.S. in radiologic sciences is a two-phase program consisting of a two-year, 57-hour academic program in the College of Liberal Arts with a 2.5 GPA on the Oxford Campus. The second phase is a two-year program at the University of Mississippi Medical Center or other such institution.
