

## **Bisc 162: Biological Sciences II**

### **Biology**

Continuation of Bisc 160. A comprehensive treatment of the major principles of modern biology, including a general consideration of embryonic development, anatomy and physiology of plant and animals, principles of ecology and a survey of biodiversity. Intended primarily for biology majors and minors, and other science majors, including pre-professional biomedical and pharmacy students.

Applies to the science requirement of the core curriculum.

3 Credits

### **Prerequisites**

- [Bisc 160: Biological Sciences I](#) (Minimum grade: C)
- [Bisc 161: Biological Sciences I Laboratory](#) (Minimum grade: C)

### **Corequisites**

- [Bisc 163: Biological Sciences II Laboratory](#)

### **Instruction Type(s)**

- Lecture: Lecture for Bisc 162

### **Subject Areas**

- [Biology/Biological Sciences, General](#)

### **Related Areas**

- [Biomedical Sciences, General](#)
