

Phcy 452: Pharmacoimmunology

School of Pharmacy

This course is designed to provide students with an integrated knowledge base in the realm of pharmacoimmunology to prepare students for the understanding of drug selection pertinent to the treatment and resolution of clinical syndromes. Interpretation of pharmacoimmunology information is a critical step in the patient care process. It is an imperative step to identifying and preventing medication-related problems and developing patient-centered solutions. Key concepts will be reinforced through the application of learned knowledge demonstrated within a final course capstone project.
