

## **Engs 610: Telecommunication Network Engineering School of Engineering**

Team design project developed in cooperation with industry. Students accomplish the design and document the results in a report and in an oral presentation.

3 Credits

## **Prerequisites**

- Engr 653: Computer Structures (Minimum grade: C)
- Engs 603: Analysis of Algorithms (Minimum grade: C)
- Engs 606: Computer Networks (Minimum grade: C)

## **Instruction Type(s)**

• Lecture: Lecture for Engs 610

## **Subject Areas**

- Laser and Optical Engineering
- Computer Science
