

# Cp E 431: Computer Architecture Electrical Engineering

Computer Architecture: instruction set architecture; single-cycle, FSM, and pipelined processor microarchitecture; hazards; memory technology; caches; memory protection, translation, and virtualization; FSM and pipelined cache microarchitecture; integration of processors and memories; performance analysis; superscalar execution; multiprocessors.

## 3 Credits Prerequisites

- El E 485: Microprocessor Systems Engineering
- El E 385: Advanced Digital Systems

### Instruction Type(s)

• Lecture: Lecture for Cp E 431

#### **Subject Areas**

• Computer Engineering, General

#### **Related Areas**

• Computer Hardware Engineering
