

Hst 699: Internship in History

[Arch Dalrymple III Department of History](#)

This class provides valuable pre-professional experience and a unique opportunity to learn about history in practice outside of the traditional academic setting. Interns will receive training they might not otherwise have access to and participate in the day-to-day operations of an organization, working with historical material in a museum, an archive, or a public memorial, among many other examples.

3 Credits
