

# **Bisc 568: Infectious Disease Ecology**

This course covers basic principles of infectious disease ecology and their application to the study of human and wildlife disease spread and control; disease modeling, transmission dynamics, basic reproductive number and herd immunity.

3 Credits

#### **Prerequisites**

• Pre-req: Bisc 301 OR Bisc 322 minimunm grade of C or graduate standing

### **Instruction Type(s)**

• Lecture: Lecture for Bisc 568

## **Subject Areas**

• Ecology and Evolutionary Biology

#### **Related Areas**

- Aquatic Biology/Limnology
- Conservation Biology
- Ecology
- Ecology, Evolution, Systematics and Population Biology, Other
- Evolutionary Biology
- Marine Biology and Biological Oceanography
- Population Biology
- Systematic Biology/Biological Systematics
