

Csci 356: Data Structures in Python

[Computer & Information Science](#)

This course will introduce data structures and their application using the Python programming language. Abstract data types for stack, queue, various lists, trees and graphs will be studied. Built-in data structures such as lists, dictionaries, and tuples will be used extensively.

3 Credits

Prerequisites

- Prerequisite: Csci 256 with a grade of C or Csci 112 with a grade of C
- Pre-Requisite: 24 Earned Hours

Instruction Type(s)

- Lecture: Lecture for Csci 356

Subject Areas

- [Computer Science](#)
