Csci 391: Computer Graphics
Computer & Information Science

Introduction to the fundamentals of computer graphics, including elementary figures, shading, geometric transformations, graphics program design, and interactive techniques.

3 Credits

Prerequisites

- Csci 211: Computer Science III
- Math 262: Unified Calculus & Analytic Geometry II
- Csci 223: Computer Org. & Assembly Language

Instruction Type(s)

- Lecture: Lecture for Csci 391

Subject Areas

- Computer Science
- Computer Graphics
