

## **C E 472: Water Resources Engineering**

### **Civil Engineering**

Water supply systems, open channel hydraulics, hydrologic cycle, surface water hydrology, run-off models, groundwater flow and contamination.

3 Credits

### **Prerequisites**

- Pre-Requisite: 24 Earned Hours

### **One-way corequisites**

- [Engr 323: Fluid Mechanics](#)

### **Instruction Type(s)**

- Lecture: Lecture for CE 472

### **Course Fee(s)**

#### **Civil Engineering 2**

- \$100.00

### **Subject Areas**

- [Civil Engineering, General](#)
- [Water Resources Engineering](#)

### **Related Areas**

- [Civil Engineering, Other](#)
- [Geotechnical and Geoenvironmental Engineering](#)
- [Structural Engineering](#)
- [Transportation and Highway Engineering](#)
