

Phcy 602: Hematology/Oncology/Immunology School of Pharmacy

This module provides patient-centered care of patients with hematologic, oncologic or immunology disorders while serving as a collaborative interprofessional team member. It introduces basic concepts of pharmacology, medicinal chemistry, and pharmaceutics particularly as applied to patients with hematologic, oncologic, or immunologic disorders while incorporating learning in a team environment. This course focuses on providing patient-centered care to patients with hematologic, oncologic, or immunologic disorders. Learners will develop, integrate, and apply knowledge from the foundational disciplines (i.e., pharmaceutical, social/behavioral/administrative, and clinical sciences) and apply the Pharmacists' Patient Care Process in solving case-based scenarios regarding patients with hematologic, or immunologic, or immunologic disorders.

3 Credits

Instruction Type(s)

Lecture: Lecture for Phcy 602

Subject Areas

• Pharmacy (PharmD - USA - PharmD, BS/BPharm - Canada)

Related Areas

- <u>Clinical and Industrial Drug Development (MS, PhD)</u>
