

Phcy 608: Multisystem Complex Patient Care II

School of Pharmacy

This course is designed to prepare the student to provide patient-centered care by serving as a collaborative, interprofessional team member who is an authority on pharmacotherapy. This course focuses on providing patient-centered care to complex patients who have chronic needs or serious disorders affecting multiple body systems in inpatient settings. Multisystem Complex Patient Care II will build on inpatient-based concepts covered in previous modules, using predominantly active-learning strategies. While every session may be a little different, activities may include (but are not limited to) cases, team-based learning, debates, oral presentations, and/or written assignments. Learners will develop, integrate, and apply knowledge from the foundational disciplines (i.e., pharmaceutical, social/behavioral/administrative, and clinical sciences) and apply the Pharmacists' Patient Care Process in solving case-based scenarios for patients.

4 Credits

Prerequisites

- Pre-requisite: Pharmacy PY3

Instruction Type(s)

- Lecture: Lecture for Phcy 608

Subject Areas

- [Pharmacy \(PharmD - USA - PharmD, BS/BPharm - Canada\)](#)

Related Areas

- [Clinical and Industrial Drug Development \(MS, PhD\)](#)
- [Industrial and Physical Pharmacy and Cosmetic Sciences \(MS, PhD\)](#)
- [Medicinal and Pharmaceutical Chemistry](#)
- [Natural Products Chemistry and Pharmacognosy \(MS, PhD\)](#)
- [Pharmaceutical Marketing and Management](#)
- [Pharmaceutical Sciences](#)
- [Pharmaceutics and Drug Design \(MS, PhD\)](#)
- [Pharmacoeconomics/Pharmaceutical Economics \(MS, PhD\)](#)
- [Pharmacy Administration and Pharmacy Policy and Regulatory Affairs \(MS, PhD\)](#)
- [Pharmacy, Pharmaceutical Sciences, and Administration, Other](#)
