

El E 485: Microprocessor Systems Engineering Electrical and Computer Engineering

Microcomputer systems. Programming, software aids, and principles of microprocessor interfacing. 2 Credits

Prerequisites

• Pre-Requisite: 24 Earned Hours

Corequisites

• El E 486: Microprocessor Systems Engr Lab

One-way corequisites

• El E 385: Advanced Digital Systems

Instruction Type(s)

• Lecture: Lecture for El E 485

Subject Areas

- Computer Engineering, General
- Electrical and Electronics Engineering
