

Phcy 604: Pediatrics and Geriatrics School of Pharmacy

During this module, the learner provides patient-centered care of pediatric and geriatric patients while serving as a collaborative, interprofessional team member. The module introduces basic concepts of pharmacology, medicinal chemistry, and pharmaceutics particularly as applied to pediatric and geriatric patients while incorporating learning in a team environment. This course focuses on providing patient-centered care to pediatric and geriatric patients. Learners will develop, integrate, and apply knowledge from the foundational disciplines (i.e., pharmaceutical, social/behavioral/administrative, and clinical sciences) and apply the Pharmacists' Patient Care Process in solving case-based scenarios of pediatric and geriatric patients. 3 Credits
