

## **M E 404: Applied Fluid Mechanics** **Mechanical Engineering**

Review of hydrostatics and dynamics, dimensional analysis and modeling, analysis and design of fluid mechanical systems including open channels, pipe networks, turbomachinery, and aerodynamic bodies.

3 Credits

### **Prerequisites**

- [Engr 322: Transport Phenomena](#)
- [Engr 420: Engineering Analysis III](#)
- Pre-Requisite: 24 Earned Hours

### **Instruction Type(s)**

- Lecture: Lecture for M E 404

### **Subject Areas**

- [Aerospace, Aeronautical and Astronautical/Space Engineering](#)
- [Civil Engineering, General](#)
