

Csci 256: Programming in Python

Computer & Information Science

Problem solving, algorithm development, and programming techniques, including applications from a range of disciplines.

3 Credits

Prerequisites

- Pre-requisite: Math 121 or higher.

Cross-listed Courses

- [CIS 256: Programming in Python](#)

Instruction Type(s)

- Lecture: Lecture for Csci 256

Subject Areas

- [Computer Science](#)
