

EI E 302: Applied Communication Systems

Electrical and Computer Engineering

Introduction to general communication principles and systems including transmission media, modulation, detection, and system applications.

May not be counted toward a major in electrical engineering.

3 Credits

Prerequisites

- [EI E 301: Applied Electronics](#)

Instruction Type(s)

- Lecture: Lecture for EI E 302

Subject Areas

- [Electrical, Electronic and Communications Engineering Technology/Technician](#)
