

Engr 322: Transport Phenomena

School of Engineering

Conservation of momentum, energy and mass, transport coefficients, balances in differential form.

3 Credits

Prerequisites

- [Math 262: Unified Calculus & Analytic Geometry II](#) (Minimum grade: C-)
- Pre-Requisite: 24 Earned Hours

One-way corequisites

- [Engr 321: Thermodynamics](#)

Instruction Type(s)

- Lecture: Lecture for Engr 322

Course Fee(s)

Chemical Engineering

- \$100.00

Subject Areas

- [Engineering, General](#)
