

Csci 562: Software Engineering I

Computer & Information Science

Software engineering paradigms, requirement analysis and specification, design of reliable software; data flow, data structure, and object-oriented design methodologies.

3 Credits

Prerequisites

- Pre-requisite: CSCI 387 or Graduate Standing

Instruction Type(s)

- Lecture: Lecture for Csci 562
- Lecture: Compressed Video for Csci 562

Subject Areas

- [Computer Science](#)
