

## Engr 322: Transport Phenomena

### [School of Engineering](#)

Conservation of momentum, energy and mass, transport coefficients, balances in differential form.

3 Credits

### Prerequisites

- [Math 262: Unified Calculus & Analytic Geometry II](#) (Minimum grade: C-)
- Pre-Requisite: 24 Earned Hours

### One-way corequisites

- [Engr 321: Thermodynamics](#)

### Instruction Type(s)

- Lecture: Lecture for Engr 322

### Course Fee(s)

#### Chemical Engineering

- \$100.00

### Subject Areas

- [Engineering, General](#)
