

## **Emphasis - Pharmacology**

- [Ph.D. in Pharmaceutical Sciences](#)
- [Emphasis - Pharmacology](#)

### **Ph.D. in Pharmaceutical Sciences** **Description**

The Ph.D. in pharmaceutical sciences can be completed with an emphasis in environmental toxicology, medicinal chemistry, pharmaceuticals, pharmacology, pharmacognosy, or pharmacy administration.

**Minimum Total Credit Hours: 54**

#### **Course Requirements**

Requirements for each emphasis area are given in the respective program description sections. Each emphasis area requires students to complete a minimum of 36 semester hours of course work and 18 hours of dissertation

### **Emphasis - Pharmacology** **Description**

A Ph.D. in pharmaceutical sciences with emphasis in pharmacology is designed to prepare graduate students to apply understanding of basic pharmacology so as to strengthen their academic foundation and skills that lead to professional careers as pharmacologists. Graduates are likely to find careers positions within academic, industry or government service.

Note: For more information, refer to the student handbook

#### **Goals/Mission Statement**

The academic mission of the Department of BioMolecular Sciences, Pharmacology Division is to apply pharmacological sciences to the teaching of professional pharmacy students and graduate students and to conduct research and educational activities that seek to identify and resolve problems related to basic and applied pharmacology.

#### **Course Requirements**

The requirements for the Ph.D. in pharmaceutical sciences with an emphasis in pharmacology consist of a minimum of 18 core course hours:

- PHCL675: Principles of Pharmacology and Toxicology I-4h
- PHCL676: Principles of Pharmacology and Toxicology II-4h
- BISC 504 Biometry-3h (or PSY 703)
- BMS 605: ORP- 1h
- BMS 601: Graduate Student Survival Strategies- 2h

In addition one of the following 4 credit courses: PHCL661: Adv. Physiology I, PHCL662: Adv. Physiology II, PHCL669: Physiological Chemistry), and a minimum of 10 course hour electives, exclusive of graded seminars (see below), from BioMolecular Sciences, Biology, Chemistry, Engineering or other graduate level programs (contingent upon Division of Pharmacology faculty approval).

#### **Seminar Requirement**

Students are required to register for BMS 643 (Z-grade) every semester, with the exception of those semesters in which the student presents a seminar and instead registers for BMS 641 (graded). No more than 8 seminar hours can be used toward the 54 minimum total credit hours

A minimum of 18 hours of dissertation research must also be taken to meet degree requirements.

#### **Other Academic Requirements**

##### **Original Research Proposal**

A student must prepare, submit, and successfully (orally) defend an original research proposal (ORP). Procedures for this requirement will be provided by the department. Students will register for BMS 605 (Original Research Proposal BioMolecular Sciences) in the semester they anticipate defending their ORP.

##### **Dissertation**

A student must prepare and orally defend a dissertation based on original, independent research in partial fulfillment of their Ph.D. degree.
