

Bisc 633: Microbial Energetics

Biology

Thermodynamic consideration of energy flux applied to growth and survival of microorganisms in the environment. Biochemical and environmental aspects are presented.

3 Credits

Prerequisites

- [Bisc 333: General Microbiology](#) (Minimum grade: C)

Instruction Type(s)

- Lecture/Lab: Lecture/Lab for Bisc 633

Subject Areas

- [Cell/Cellular Biology and Anatomical Sciences, Other](#)

Related Areas

- [Anatomy](#)
- [Cell/Cellular Biology and Histology](#)
- [Cell/Cellular and Molecular Biology](#)
- [Developmental Biology and Embryology](#)
