

## Engr 322: Transport Phenomena

### [School of Engineering](#)

Conservation of momentum, energy and mass, transport coefficients, balances in differential form.

3 Credits

#### Prerequisites

- [Math 262: Unified Calculus & Analytic Geometry II](#) (Minimum grade: C-)
- Pre-Requisite: 24 Earned Hours

#### One-way corequisites

- [Engr 321: Thermodynamics](#)

#### Instruction Type(s)

- Lecture: Lecture for Engr 322

#### Course Fee(s)

##### Chemical Engineering

- \$100.00

#### Subject Areas

- [Engineering, General](#)
