

## **Engr 322: Transport Phenomena**

### **School of Engineering**

Conservation of momentum, energy and mass, transport coefficients, balances in differential form.

3 Credits

### **Prerequisites**

- [Math 262: Unified Calculus & Analytic Geometry II](#) (Minimum grade: C-)
- Pre-Requisite: 24 Earned Hours

### **One-way corequisites**

- [Engr 321: Thermodynamics](#)

### **Instruction Type(s)**

- Lecture: Lecture for Engr 322

### **Course Fee(s)**

#### **Chemical Engineering**

- \$100.00

### **Subject Areas**

- [Engineering, General](#)
