

# Chem 554: Analytical Environmental Chemistry Chemistry & Biochemistry This course will focus on the analytical chemistry of pollutants and instrumental techniques used to identify and quantify them.

3 Credits

### **Prerequisites**

• Pre-requisite: Chem 469 with minimum grade of C or Graduate standing.

## **Instruction Type(s)**

• Lecture: Lecture for Chem 554

## **Subject Areas**

- Environmental Chemistry
- Analytical Chemistry

### **Related Areas**

- Chemical Physics
- Chemistry, General
- Forensic Chemistry
- Inorganic Chemistry
- Organic Chemistry
- Physical Chemistry
- Theoretical Chemistry
