

# BME 462: Biomedical Engineering Senior Design II Biomedical Engineering

Biomedical-orientated design projects involving the design, planning, and testing of a prototype; and/or selection of new design projects addressing realistic constraints such as human safety, health care costs, reliability, ethics, and social impact. Part 2 of a two-semester sequence.

### **Prerequisites**

- BME 461: Biomedical Engineering Senior Design I
- Pre-Requisite: 24 Earned Hours

### Instruction Type(s)

• Lecture: Lecture for BME 462

## Course Fee(s) Biomedical 5

• \$100.00

#### **Subject Areas**

• Bioengineering and Biomedical Engineering
