

## Csci 391: Computer Graphics Computer & Information Science

Introduction to the fundamentals of computer graphics, including elementary figures, shading, geometric transformations, graphics program design, and interactive techniques.

3 Credits

## **Prerequisites**

- Csci 211: Computer Science III
- Math 262: Unified Calculus & Analytic Geometry II
- Csci 223: Computer Org. & Assembly Language

## **Instruction Type(s)**

• Lecture: Lecture for Csci 391

## **Subject Areas**

- Computer Science
- Computer Graphics
