

# El E 485: Microprocessor Systems Engineering Electrical and Computer Engineering

Microcomputer systems. Programming, software aids, and principles of microprocessor interfacing. 2 Credits

#### **Prerequisites**

• Pre-Requisite: 24 Earned Hours

#### **Corequisites**

• El E 486: Microprocessor Systems Engr Lab

### **One-way corequisites**

• El E 385: Advanced Digital Systems

## Instruction Type(s)

• Lecture: Lecture for El E 485

#### **Subject Areas**

- Computer Engineering, General
- Electrical and Electronics Engineering
