

Engr 314: Materials Science Laboratory School of Engineering

Laboratory investigation of crystal structure, defects, and diffraction theory; solidification of solids; microstructurally controlled physical and mechanical properties.

1 Credit

Prerequisites

• Engr 314 Requires: One Way-Co-Requisite Engr 313

• Pre-Requisite: 24 Earned Hours

Instruction Type(s)

• Lab: Lab for Engr 314

Course Fee(s) Mechanical Engineering 2

• \$100.00

Subject Areas

• Engineering, General
