

# Ch E 520: Biochemical Engineering Chemical Engineering

An overview of microbiology and biochemistry. The development of models for microbial kinetics. The design of reactors and auxiliary equipment for microbial systems.

3 Credits

## **Prerequisites**

Junior Standing Required

### **Cross-listed Courses**

• BME 520: Biochemical Process Engineering

## Instruction Type(s)

• Lecture: Lecture for Ch E 520

#### Subject Areas

• Chemical Engineering

## **Related Areas**

• Chemical and Biomolecular Engineering
