

# Csci 345: Information Storage and Retrieval

## [Computer & Information Science](#)

Examination of systems for storage and retrieval of information in textual and other formats. The topics include query processing, matching and ranking algorithms, text analysis, user interfaces, and evaluation of retrieval effectiveness.

3 Credits

### Prerequisites

- Prerequisite: Csci 211 or CIS 211 or Csci 343

### Instruction Type(s)

- Lecture: Lecture for Csci 345

### Subject Areas

- [Computer Science](#)
