

## Csci 562: Software Engineering I Computer & Information Science

Software engineering paradigms, requirement analysis and specification, design of reliable software; data flow, data structure, and object-oriented design methodologies.

3 Credits

## **Prerequisites**

• Pre-requisite: CSCI 387 or Graduate Standing

## Instruction Type(s)

- Lecture: Lecture for Csci 562
- Lecture: Compressed Video for Csci 562

## Subject Areas

• Computer Science
