

El E 534: Wireless Mobile Communications Electrical and Computer Engineering

Focuses on today's modern cellular and personal communications systems, satellite-based systems, and their technical and regulatory aspects. The technical aspects include modulation techniques, propagation characteristics, bit error rate, and multipath.

3 Credits

Prerequisites

• Prerequisite: EI E 331 and EI E 391 or graduate standing and consent of instructor

Instruction Type(s)

• Lecture: Lecture for El E 534

Subject Areas

- Telecommunications Engineering
- Electrical and Electronics Engineering

Related Areas

- Electrical, Electronics and Communications Engineering, Other
- Laser and Optical Engineering
