

Ch E 661: Advanced Transport Phenomena II Chemical Engineering

Theoretical development and application of the equations of continuity and conservation of energy to solve problems associated with the nonisothermal flow of pure fluids and mixtures.

3 Credits Prerequisites

• Ch E 660: Advanced Transport Phenomena I

Instruction Type(s)

• Lecture: Lecture for Ch E 661

Subject Areas

<u>Chemical Engineering</u>

Related Areas

• Chemical and Biomolecular Engineering

The University of Mississippi is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award certificates and baccalaureate, master's, specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call 404-679-4500, or visit online at www.sacscoc.org for questions about the accreditation.
