

# Ch E 251: Programming for Chemical Engineering Chemical Engineering

Algorithm development and structured programming techniques, including numerical and graphical applications related to engineering and scientific problem solving.

3 Credits

### **Prerequisites**

• Ch E 251 Requires: One Way-Co-Requisite Math 261

## Instruction Type(s)

• Lecture: Lecture for Ch E 251

#### **Subject Areas**

• Chemical Engineering

#### **Related Areas**

• Chemical and Biomolecular Engineering
