

## Engr 546: Micro/Nanoscale Fabrication

### [Mechanical Engineering](#)

Introductory course on the physical theory, design, analysis, fabrication, and characterization of micro/nanoscale fabrication and manufacturing.

3 Credits

#### Prerequisites

- Senior standing required.

#### Instruction Type(s)

- Lecture: Lecture for Engr 546

#### Subject Areas

- [Manufacturing Engineering](#)
- [Materials Engineering](#)
- [Mechanical Engineering](#)
