

# Phcy 505: Integrated Systems: Neuromuscular

## School of Pharmacy

This block introduces basic concepts of pharmacology, clinical chemistry, and pharmaceutical application of drugs that regulate both the musculoskeletal system and the nervous system that regulates neuromuscular function. A central focus of this module is to understand pain management. Learners will develop, integrate, and apply knowledge from the foundational disciplines (i.e., pharmaceutical and clinical sciences) and apply the Pharmacists' Patient Care Process in solving case-based scenarios of patients with pain and muscular issues.
