

Minor - Military Science

• [Minor - Military Science](#)

Minor - Military Science Description

A minor in military science prepares students/cadets to be leaders of character in all aspects of life, whether it is serving as a leader of a military unit or leading a group in the corporate world. Students will learn essential problem-solving skills and be put in challenging situations that will develop their leadership abilities.

Course Requirements

A minor in military science consists of a minimum of 16 hours of MSL courses, including MSL 301, 302, 401, and 402.
