

BMS 652: Regulation of Dietary Supplements

Biomolecular Sciences

BMS 652 is an asynchronous online course designed to provide students with a thorough understanding of the regulatory landscape of the dietary supplement industry. By exploring key legislation, going over cGMPs, as well as challenges related to monitoring safety, enforcement, and compliance, students will be able to make informed decisions around compliance. The course will also provide students with hands-on experience in responding to FDA Form 483s, creating compliant product labels, and identifying cGMP violations with case studies. By the end of the course, students will have the knowledge and skills necessary to identify and mitigate compliance risks and ensure products and operations meet regulatory requirements.

3 Credits

Instruction Type(s)

- Lecture: Web-based Lecture for BMS 652

Subject Areas

- [Industrial and Physical Pharmacy and Cosmetic Sciences \(MS, PhD\)](#)

Related Areas

- [Clinical and Industrial Drug Development \(MS, PhD\)](#)
- [Medicinal and Pharmaceutical Chemistry](#)
- [Natural Products Chemistry and Pharmacognosy \(MS, PhD\)](#)
- [Pharmaceutical Marketing and Management](#)
- [Pharmaceutical Sciences](#)
- [Pharmaceutics and Drug Design \(MS, PhD\)](#)
- [Pharmacoeconomics/Pharmaceutical Economics \(MS, PhD\)](#)
- [Pharmacy \(PharmD - USA - PharmD, BS/BPharm - Canada\)](#)
- [Pharmacy Administration and Pharmacy Policy and Regulatory Affairs \(MS, PhD\)](#)
- [Pharmacy, Pharmaceutical Sciences, and Administration, Other](#)
