- [Concentration - Community Hlth & Epidem](#)
- [Emphasis - Commun Hlth/Epidem \(Resident\)](#)

M.P.H. in Public Health **Minimum Total Credit Hours: 42** **Course Requirements** **MPH Program - 42 credit hours** **Public Health Core (15 hours)**

- PH 505 - Health Program Planning (3 hours)
- PH 528 - Public Health Policy (3 hours)
- Jour/IMC 585 - Health Communication (3 hours)
- PH 610 - Biostatistics for Public Health Practice (3 hours)
- PH 646 - Epidemiology (3 hours)

Public Health Practicum (6 hours)

- PH 698 - Public Health Practicum (1-6 hours)

Electives (3-12 hours)

- PH 600 - Foundations of Public Health (3 hours)
- Required in the first semester for students without an undergraduate degree in public health
- PH 515 - Motivational Interviewing (3 hours)
- PH 595 - Human Health and Illness (3 hours)
- PH 620 - Emerging Issues in Public Health (3 hours)
- PH 665 - Special Topics in Health Behavior (3 hours)
- Other courses across campus in areas of interest

Concentrations (9-18 hours)

Students will select one concentration in community health or epidemiology or a combined community health and epidemiology concentration which would require 9 credits from each of epidemiology and community health.

Community Health Concentration (9 hours)

- PH 555: Health Equity (3 hours)
- PH 635: Theories in Health (3 hours)
- PH 685: Health Program Evaluation (3 hours)

Epidemiology Concentration (9 hours)

- PH 670: Applied Epidemiology (3 hours)
- PH 674: Chronic Disease Epidemiology (3 hours)
- PH 680: Infectious Disease Epidemiology (3 hours)

Other Academic Requirements

Integrative Learning Experience (ILE)

In the last semester of their degree, students will complete a comprehensive exam to satisfy the CEPH requirement for an integrative learning experience (ILE).

Concentration - Community Hlth & Epidem **Description**

The concentrations in community health and epidemiology, which consists of 18 of the total 42 MPH credit hours, allow students to complete an emphasis in the application of public health theory and an emphasis in the science with the study of trends, patterns, exposures, and causes related to chronic and infectious diseases. This reduces the number of remaining hours completed as electives (the total number of required hours for the degree remains the same).

Course Requirements

Community Health Concentration (9 hours)

- PH 555: Health Equity (3 hours)
- PH 635: Theories in Health (3 hours)
- PH 685: Health Program Evaluation (3 hours)

Epidemiology Concentration (9 hours)

- PH 670: Applied Epidemiology (3 hours)
- PH 674: Chronic Disease Epidemiology (3 hours)
- PH 680: Infectious Disease Epidemiology (3 hours)

Emphasis - Commun Hlth/Epidem (Resident)
