

BME 462: Biomedical Engineering Senior Design II Biomedical Engineering

Biomedical-orientated design projects involving the design, planning, and testing of a prototype; and/or selection of new design projects addressing realistic constraints such as human safety, health care costs, reliability, ethics, and social impact. Part 2 of a two-semester sequence.

Prerequisites

- BME 461: Biomedical Engineering Senior Design I
- Pre-Requisite: 24 Earned Hours

Instruction Type(s)

• Lecture: Lecture for BME 462

Subject Areas

• Bioengineering and Biomedical Engineering
