

El E 485: Microprocessor Systems Engineering

Electrical and Computer Engineering

Microcomputer systems. Programming, software aids, and principles of microprocessor interfacing.

2 Credits

Prerequisites

- Pre-Requisite: 24 Earned Hours

Corequisites

- [El E 486: Microprocessor Systems Engr Lab](#)

One-way corequisites

- [El E 385: Advanced Digital Systems](#)

Instruction Type(s)

- Lecture: Lecture for El E 485

Subject Areas

- [Computer Engineering, General](#)
- [Electrical and Electronics Engineering](#)
