

# **Bisc 162: Biological Sciences II Biology**

"This course is a continuation of Bisc 160. It is a comprehensive treatment of the major principles of modern biology, including a general consideration of embryonic development, anatomy and physiology of plant and animals, principles of ecology and a survey of biodiversity. Intended primarily for biology majors and minors, and other science majors, including pre-professional biomedical and pharmacy students. (3 lecture hours).

Applies to the science requirement of the core curriculum.

3 Credits

#### **Prerequisites**

- Bisc 160: Biological Sciences I (Minimum grade: C)
- Bisc 161: Biological Sciences I Laboratory (Minimum grade: C)

# **Corequisites**

• Bisc 163: Biological Sciences II Laboratory

## Instruction Type(s)

• Lecture: Lecture for Bisc 162

### **Subject Areas**

• Biology/Biological Sciences, General

#### **Related Areas**

• Biomedical Sciences, General
