- Psy 201: General Psychology

- Psy 301: Developmental Psychology or 311: Abnormal Psychology or NHM 323: Human Growth and Development

Emphasis - Health Care Administration Description

Health care administrators provide leadership and expertise in a variety of health care settings. A health care administrator (also known as a medical or health services manager) is tasked with overseeing the operations of health care providers. Whether at a doctor's office, hospital, senior care facility, or outpatient clinic, the health care administrator coordinates the business activities of the facility or department.

Course Requirements

- Phil 321. Ethics or 328. Biomedical Ethics
- Mgmt 351. Health Systems Management
- Mgmt 352. Health Innovation & Information
- Mgmt 353. Health Care Regulation and Policy
