

Phys 530: Independent Study in Physics I

This is an independent study course. Students can take it to learn the basic concepts of an area in which they may then carry out a research project. The course content is driven by student interest, with specific topics chosen by the instructor in consultation with the student. The format is based on readings and homework assigned by the instructor and weekly meetings during which the assigned topics are discussed.

1 - 3 Credits

Prerequisites

Instructor Approval Required

Instruction Type(s)

Indiv Based: Individual Based fro Phys 530

Subject Areas

<u>Physics</u>, General

Related Areas

- Acoustics
- Atomic/Molecular Physics
- Condensed Matter and Materials Physics
- Elementary Particle Physics
- <u>Nuclear Physics</u>
- Optics/Optical Sciences
- Physics, Other
- <u>Theoretical and Mathematical Physics</u>

The University of Mississippi is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award certificates and baccalaureate, master's, specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call 404-679-4500, or visit online at www.sacscoc.org for questions about the accreditation.
