

DRCT 601: Navigating Your Research Experience

[School of Pharmacy](#)

Navigating Your Research Experience is a graduate-level course tailored for students in STEM and social science fields who are in their first semester or above. Students must have a major research adviser/mentor identified at the time of enrollment. This course equips students with essential skills and knowledge to thrive in the research environment, fostering personal and professional growth. This course will employ a combination of discussions, case studies, and group activities to facilitate active learning and skill development. By the end of the course, students will emerge with a comprehensive toolkit to navigate the complexities of the research environment, foster meaningful relationships, and contribute positively to the advancement of knowledge in their respective fields.
