

## G E 555: Introduction to Mining Engineering Geology & Geological Engineering

Introduction of theories and fundamentals of mining engineering, including the identification and evaluation of mineral deposits, the design and implementation of efficient mining operations, and innovations in mining technology.

## **Prerequisites**

• Junior Standing Required

## **Instruction Type(s)**

• Lecture: Lecture for G E 555

• Lecture: Web-based Lecture for G E 555

## **Subject Areas**

• Geological/Geophysical Engineering
